**What is a hand-tufted carpet?**

Hand-tufted carpets are made partly by hand and partly by machine tools. Logo Rug Carpet Non-slip Floor Mat is made of acrylic. Hand-tufted carpet is made by stamping acrylic threads into canvas, which is stretched on the frame with the help of hand-operated tools.

After stacking with acrylic, remove the carpet from the frame. Hand-tufted carpets will have some kind of support to hold the tufts in place. The cloth fabric is usually glued to the back.

DK-H2000
